The Carroll County Board of Commissioners submits Addendum 6 to Solicitation No. 10-A016, **FLOOD AND STORM DAMAGE REPAIRS/CLEAN-UP AT MCINTOSH RESERVE PARK**. This addendum is issued to clarify the scope of work.

CHANGES AND ADDITIONS TO ORIGINAL SOLICITATION

1. Proposals are still due 3:00 pm, Friday, July 30, 2010.
2. Interested bidders may pick-up approved plans/drawings at the Purchasing Office located at 423 College Street, Room 410, Carrollton, GA 30117. Questions on plans/drawing should be directed to:

3. As a result of the Pre-Bid meeting of Friday, July 16, 2010, the following information is provided:
  - The amount of sediment removal and relocation has been reduced from the original scope. Bidders should bid on the removal of sediment to the levels specified in the plans/drawings.
  - The park is currently open to the public. Overnight campers and day-use patrons are utilizing the unaffected areas of the park. The majority of the work-site covered in the drawings has been cordoned off from the public. All care must be taken to ensure the safety of the public. All questions or coordination must be directed to the park manager.
  - Work times shall be coordinated with the park manager. Weekends and after-hour work is acceptable with prior park manager approval.
  - All Silt Fencing will be replaced with Mimic Nature™ or an equivalent product. This type of erosion control is more conducive to the park environment.
  - All material will stay within the park with the exception of man-made materials/debris found in the sediment.
  - CAD files are available; bidders must contact Georgia and West, Inc. to make arrangements.

- The County is responsible for “As-Built” surveys.
- Contractor will be responsible for the staking of construction limits.
