DEPARTMENTAL COMMENTS:

Carroll County Public Works: The subject property has access from Oak Grove Church Road. The proposed additional single family dwelling may access the property from the existing driveway, but may also construct a new driveway. The anticipated traffic generation rate is an average of 1 per hour or 10 trips per day.

Carroll County Engineer: The subject property is not within the 100-year flood plain or probable wetland. There are no known "state waters" on the subject property. Hulett and Madison soils are suitable for septic on 48% of parcel. Davidson soils may not support septic on 52% of the parcel.

Carroll County Fire Rescue: No comments at the time of this report.

Carroll County Board of Education: The proposed single family dwelling could add one family to the Carroll County School System.

Carroll County Water Authority: Carroll County Water Authority serves this property, but does not review for fire protection requirements. Zoning analysis does not reserve water capacity.

All received departmental comments are available upon request.

STAFF COMMENTS: The proposed property consists of 6.75 acres with a home and a barn which the applicant wishes to use as a dwelling. The home on the property was constructed in 1998, and the barn which is being converted to a dwelling was built in 2003. The placement of the barn is not practical for splitting the parcel. The use would have no adverse impact on the neighborhood.

STAFF RECOMMENDATION: APPROVAL.

PUBLIC NOTIFICATIONS: As required by Sections 14.3 and 14.4 of the Carroll County Zoning Ordinance, the public has been notified in the *Times-Georgian* on January 9, 2021; a sign was posted on the subject property, and all abutting property owners received notification of the rezoning request via U.S. mail.

Respectfully submitted,
